## There is an old mountain town saying, "came for winter, stayed for summer"

Many a retailer and fan who first connected with Mons Royale in winter have then stayed on for summer. And that is our goal when designing apparel; to stay with our fans for all the sports and activities they do once the snow starts melting.

The SS20 range is designed to inspire a life of action and adventure, it brings a freshness of colour, new styles and new fabric blends that allow merino to excel through both the shoulder and peak seasons. It might be the first days of spring when ski's and bike share space on the car and you need a versatile base layer that doubles as a bike jersey, or the height of summer on a high alpine ride when you need breathability to cope with a temperature range of 20°C. We have created a range of merino that will work for you.

For SS20 our Bike collection continues to challenge fans and retailers with the idea that bike apparel doesn't have to be synthetic, the same way that we challenged the snow industry ten years ago. The growth of our bike offering reflects our on-going success in this area.

This range uses new fabrics, features and technology to amplify the classic performance benefits of merino and prove that like the mountains themselves, merino is not just for winter.

## NO ORDINARY SHEEP

**Merino are incredibly versatile sheep, they live year-round at altitude, from -10°C in the depths of winter to 30°C in the height of summer.**

**The warmth and breathability of their wool allows them to survive in these extremes. That is why this brilliant raw material is the starting point for every Mons Royale range.**

## Benefits of Merino Wool

### + ANTI ODOUR

The crimped structure of the fibres means that bacteria cannot attach itself to the wool, so merino garments stay fresher for longer.

### + TEMPERATURE REGULATION

Merino is nature's air conditioning, when it's cold it releases heat as it absorbs moisture and keeps you warm. When it's hot the process is reversed and has a cooling effect.

### + BREATHABLE

Merino has a very high moisture absorption capacity so will keep you dry by transporting moisture away from the body.

### + SOFT

The fine gauge of merino fibres makes it super soft. This means merino is perfect for underwear, base layers and bike apparel where you want to reduce friction.

### + 100% RENEWABLE

Merino wool is a sustainable, natural material that is 100% biodegradable.

## Sustainability

### + TRACEABLE

We use ZQ merino wool sourced via forward contracts directly from ZQ certified farms. The forward contracts are fully traceable to the farm, up to 3 years in duration, and designed to provide growers and us with transparency, provenance and stability in terms of quality and price.

### + ANIMAL WELFARE

ZQ merino sheep live free range lives under the 'Five Animal Freedoms' charter. ZQ also does not permit bulk live international shipping, mulesing, or the use of permanent feedlots.

### + NO MULESING

Mulesing is not practiced by any ZQ grower so you can be assured that Mons Royale merino is 100% mulesing free.

### + ENVIRONMENTAL SUSTAINABILITY

All ZQ growers create a Farm Environmental Plan (FEP) to manage the impacts to their individual property.

### + PEOPLE

ZQ growers are bound to careful stewardship of the land and the health and safety of those living and working on it.

### + FIBRE QUALITY

Each fleece is assessed in the woolshed by an expert wool classer to ensure consistency in tests whiteness, strength and contamination.

### + THIRD PARTY AUDITING

ZQ growers are audited by an independent third party who inspect sheep, farms and facilities to ensure all these standards are met.

## ZQ MERINO

**ZQ merino wool is used by the world's most respected brands and meets or exceeds the Responsible Wool Standards (RWS), a hallmark that certifies a farmer is meeting the highest standards in the areas of animal welfare, environmental care, and social sustainability.**

## Underwear

FIRST ON. LAST OFF.

What you wear next to skin is vital to your comfort. Merino wool is ideal for your first layer because it is super soft, breathable and resists odour.

We design high performance merino underwear that provides athletic support and regulates your temperature, without compromising on style.

## Core

PACK LESS. DO MORE.

Core is our most versatile collection, designed to work on and off the mountain, so you can pack less and do more.

Simple designs allow the Core collection to work just as well with bike shorts and snow pants as they do with jeans.

## Base

MULTISPORT. YEAR ROUND.

The Base collection is the bedrock of the Mons Royale range. We utilise different fabric blends and weights to create multisport garments that will work for you year-round.

With a clear focus on performance we have developed a collection that reduces weight and improves moisture management and breathability.

## Snow

ON SNOW PERFORMANCE.

The Mons Snow collection uses specific features, fabric blends, weights and construction to create unparalleled on-snow performance, without compromising on style.

From halfpipe to hard pack, backcountry to boot pack we make base, mid and insulation layers that meet your needs.

## Bike

MTB SPECIFIC PERFORMANCE.

Our Bike apparel harnesses the performance benefits of merino wool no matter what your taste in terrain or how hard you want to ride.

We bring merino's legendary moisture management, temperature regulation and odour control to mountain bike apparel.

## Lifestyle

DESIGNED FOR THE RIDERS LIFESTYLE.

For the ride to work or round the world trips, for van-life or downtime our Lifestyle collection uses merino wool for comfort and guaranteed good times.

Relaxed staples set the tone for a collection focused on everyday comfort and style, with the performance of merino hidden in plain sight.

# RANGE BREAKDOWN

## KEY FABRICS

## We have developed innovative new fabric blends that enhance the performance of merino in summer.

## ULTRA-LITE

### Merino Air-Con™

NATURE'S AIR-CONDITIONING.

A lightweight fabric for year-round use, Merino Air-Con is constructed from super fine merino fibres that are spun around a nylon core. This provides the next to skin comfort, breathability and odour control of merino with the durability of nylon. A touch of elastane provides ease of movement and shape retention. **83% Merino Wool, 13% Nylon, 4% Elastane**

## YEAR ROUND

Keeps you cool when hot and warm when cold

## NATURE'S AIR-CONDITIONING

Naturally moves moisture away from body

## ANTI ODOUR

Merino has natural anti-bacterial properties

## ULTRA-COOL

### Merino Tencel™

TURNS OUT TREES ARE COOL.

Spinning Tencel, a fibre derived from wood with merino wool creates a fabric that is soft to the touch and cool against the skin, even on the hottest days. The blend is spun around a nylon core to increase strength. **52% Merino Wool, 35% Lyocell (Tencel is the trademark of Lyocell), 13% Nylon**

## COOL FOR HOT HUMID DAYS

Highly evaporative keeping you cool and dry

## LIGHT &amp; BREATHABLE

Superior softness due to fine merino and TENCEL™

## NATURAL

PERFORMANCE BLEND TENCEL™ is a botanic fibre derived from sustainable wood sources

## QUICK-DRY

### Merino Shift™

FAST WICKING TECHNOLOGY.

Merino Shift was developed to offer fast wicking performance for high output activities. Merino Shift blends the next to skin comfort and temperature regulation of merino with the durable, fast wicking properties of polyester. **44% Merino Wool, 44% Polyester, 12% Nylon**

## HIGH OUTPUT

Designed for high output activities

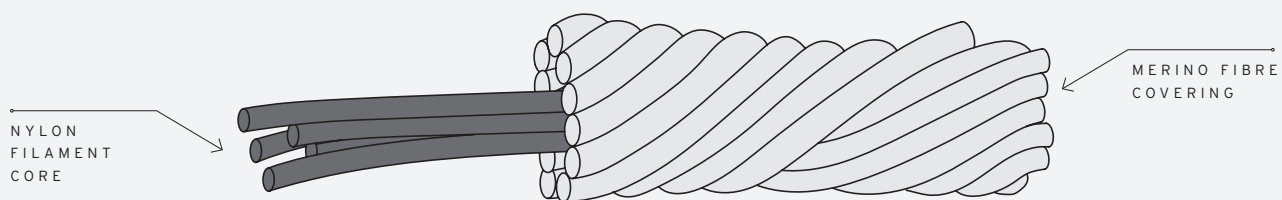

## FAST WICKING

Moves moisture away from body keeping you dry

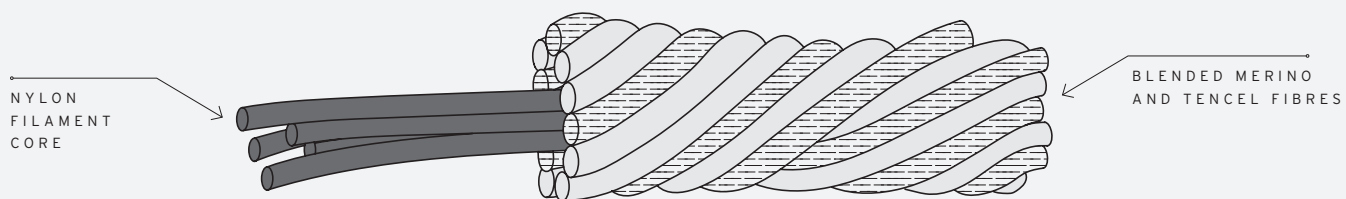

## DURABLE

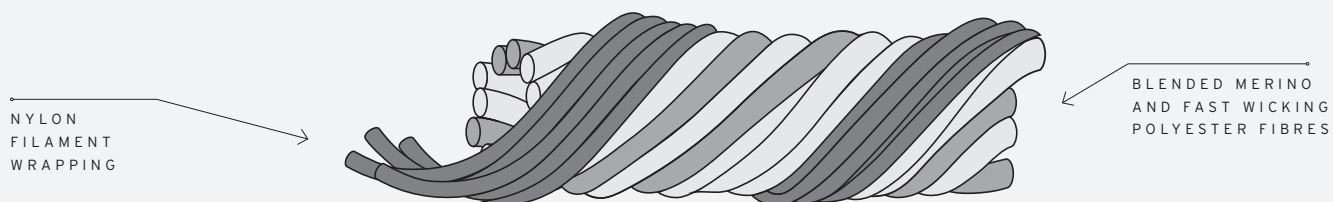

Reinforced merino for durability

# LIFESTYLE

DESIGNED FOR THE RIDERS LIFESTYLE.

For the ride to work or round the world trips, for van-life or downtime our Lifestyle collection uses merino wool for comfort and guaranteed good times. Relaxed staples set the tone for a collection focused on everyday comfort and style, with the performance of merino hidden in plain sight.

+ COVERT LIGHT

# COVERT LITE

In Covert Lite we have created the ultimate lightweight layer. It offers comfort and uncompromised style using the natural performance blend of Merino Tencel. This summer specific fabric is soft, light and cool for the hottest days.

**Fabric** 255gsm Merino Tencel Terry

**Composition** 56% Merino Wool 38% lyocell 6% elastane

**Sizes** S, M, L, XL **Fit** Standard

## COVERT LITE CREW

100188

100171-1090-414

# SOCKS

This is where merino makes the most sense. Breathable, durable and warm, even when wet. But most importantly our socks refuse to smell, smelly feet are never funny, with merino socks you don't have to be that person.

## VERT ANKLE SOCK

WOMENS
